Perkins.

New ALMANACK

AND

PROGNOSTICATION

FOR

The year of our Lord God 1672.

BEING

The *Bissextile* or Leap-year.

And from the Worlds Creation

5635.

Composed and chiefly referred to the famous City of *London*.

Made and set forth by *F. Perkins*, Welwiller to the Mathematicks.

LONDON

Printed by *Elizabeth Leach*, for the Company of Stationers.

The Common Notes, and Moveable Feasts,
According to the English Account, for this Year 1672.

The Golden Number	1
The Dominical Letters	G F
Shrove-Sunday	*Feb.* 18.
Easter-day	*April* 7.
Rogation-Sunday	*May* 12.
Ascention-day	*May* 16.
Whitsunday.	*May* 26.

Note, That the Roman Account is always ten days before the English Account; so that their Eleventh day is our First day, and our Last day is their Tenth day,

---

The Exchequer openeth eight days before any Term begins except the Term of Trinity, before which it openeth but four days.

Observe, that the first and last days of every Term, are the first and last days of Appearance.

A perfect Table of the four Terms, and their Returns:

With the Essoyn-Dayes, Dayes of Exception, *Returna Brevium*, and days of Appearance, this Year 1672.

Hillary Term begins Jan. 23. ends Febr. 12.

Return-Dayes or Dayes of Essoin.	Dayes of exception	Returna Brevium	Dayes of apparence

Perkins. 1672.

A Prognostication for the year of our Lord God, 1672.

Being the Bissextile, or *Leap-year*, and from the Worlds Creation, 5635.

Wherein is contained the description of the four quarters of the year: As also a Chronological Table of many things worth remembrance, since the Creation, until this present year, 1672. Collected for the most part out of Ecclesiastical History, and other good Authors, something augmented.

By F. PERKINS, Well-willer to the Mathematicks.

Printed at *London* by *Robert White*, for the Company of Stationers, 1672. *Cum Privilegio.*

A Description of the four Quarters of the ye and first of Winter.

☉ in ♑ ♐

According to the custom of Astronomers in this Nation, the first Quarter is the first Quarter, which first begins the 11. day of December, at which time the Sun enters into the first degree of the 10th sign the first Capricorn, bringing the most remote from us in the Southern Signs, which causeth the Days with us to be shortest, and the Nights longest: Which Quarter continueth until the Sun hath passed through Capricorn, Aquarius, and Pisces.

This Quarter doth naturally resemble Old age.

Of the Spring.

☉ in ♈ ♉ ♊.

This Quarter doth take beginning the 20 of March, which time the Sun entereth into the first degree of Aries, and then continueth against the Sun in [illegible] through three Signs, Aries, Taurus, and Gemini. This Quarter doth resemble youthful years.

Of Summer.

☉ in ♋ ♌ ♍.

The Summer Quarter doth take his beginning the 21 of June, at which time the Sun entereth into the first degree of Cancer, which will be this year the 11 of June, and continueth through the four signs, Cancer, Leo, Virgo, and Libra, and then the days are the longest, and the Nights shortest, but of necessity, did Physick abide.

Of Autumn.

☉ in ♎ ♏ ♐

Autumn or Harvest Quarter (commonly called the Fall of the Leaf, of some the latter Spring) which time the Sun doth enter into the first degree of Libra, making again the Day and the Night of equal length, which will be this year the 24 of September, and continueth through the four signs, Libra, Scorpio, Sagittarius, and Capricornus. This Quarter doth resemble Man's years, and Philosophick completion.

A brief Chronological Description of many things worthy of memory that have hapned since the Creation unto this present year of our Lord 1672. with the year of the World in which they happned in the first Column; faithfully collected from many good Authors.
